GENERAL PRESENTATION

LOCATION HISTORY

Situated some 4,5 km from Sylvanès, this wooden Russian orthodox church has been built in october 1994 after requested by Priest André Gouze. It was first built in the woods of Khirovo (about 700 km east of Moscow) in the winter of 1993/94, then taken apart and carried by trains, trucks and tractors till its final destination and finally built up again using an old russian technic which does not need any nail nor pen.
