ENVIRONMENT

Seaside, Mountain, Village, City

GENERAL PRESENTATION

Roquebrune-Cap-Martin is a climatic seaside resort which benefits from tourist populations arrival throughout the year. It also has equipped beaches, quality sports facilities (tennis, swimming pools, stadiums ...) and proximity to tourist activities offered by the cities of Monaco and Menton.

The city is made up of five districts with strong identities :

- Saint-Roman (to the West), on the Monegasque border, a structured sector welcoming shops.
- Cabbé, Bon-Voyage and Serret, are mainly residential areas, where the particularly steep topography offers the typical image of the French Riviera. There are several elements of the architectural and cultural heritage of the town in these sectors (E-1027, Le Corbusier's cabanon, Bon-Voyage chapel, etc.).
- The Old Village, combines the traditional picturesque (perched village) with the testimonies of the past (10th century castle) and the marks of modernity (new district of Rataou).
- Carnolès (in the East) urban district with multiple infrastructures (school, supermarkets, pharmacies ...), district the town center of the municipality.
- Cap-Martin, a long peninsula with steep edges which is made up of both magnificent villas surrounded by symbols of wooded parks, great architects and resort tourism from the beginning of the 19th century (Tersling villas), and contemporary urban forms (Cape Plateau). This district is home to the town hall and the olive trees park.
